Java	JavaScript	TypeScript	Python	Node.js
Spring Boot	React	Electron.js	PostgreSQL	Git

EDUCATION

B.S. Computer Science

California State University, Monterey Bay Aug 2022 – May 2026

PROJECTS & RESEARCH

MoE-Precip: Adaptive Mixture-of-Experts Fusion and an Interactive Web-Based Visual Analytics Interface for Multimodal Precipitation Forecasting

CSUMB — Faculty Research Nov 2025 – Present Monterey Bay, CA

- Developed an interactive web visualization for a Mixture of Experts (MoE) model applied to temporal weather prediction, collaborating directly with faculty researchers.
- Paper accepted for presentation at **Human-Computer Interaction International 2026** (HCII 2026) — <https://2026.hci.international/>
- Built with JavaScript, Leaflet.js.

OTTER: Open Text Transcription Editing Resource

CSUMB — Capstone Feb 2026 – Present Monterey Bay, CA

- Uses an automatic speech recognition (ASR) model to allow users to edit audio files by editing text rather than solely via waveform editors.
- Built with Electron.js, Whisper, and FFmpeg.

LEADERSHIP & ACTIVITIES

HCII 2026 Accepted Paper

Research accepted for presentation at Human Computer Interaction International 2026.

Tennis Captain

Led varsity team; 4-year varsity athlete demonstrating leadership and long term commitment.

Freeride Competitor

3-year competitor in the International and Tahoe Junior Freeride Series.

EXPERIENCE

Line Cook

Martis Camp May 2021 – Present (Seasonal) Truckee, CA

- Consistently performed in a high-pressure, fast-paced kitchen environment across multiple seasons, demonstrating reliability and teamwork.

Busser

Village Pizzeria Apr 2019 – Aug 2020 Truckee, CA

- Provided quality customer service and supported front-of-house operations in a team-oriented environment.
